- 1) participate in the management of the University in accordance with the procedure established by the legislation of Ukraine;

2) participate in discussing and resolving the issues of improving the educational process, research work, awarding scholarships, organizing leisure, health improvement, welfare and nutrition;

3) conduct organizational, educational, scientific, sports, wellness and other events;

4) participate in activities (processes) on quality assurance of higher education;

5) protect the rights and interests of students studying at the University;

6) delegate their representatives to the working, advisory and advisory bodies;

7) adopt acts regulating their organization and activity;

8) participate in solving the issues of ensuring the proper living conditions of students' accommodation in the dormitories and organizing of students' meals;

9) management of funds and other property on the balance sheet and bank accounts of student self-government bodies;

10) make proposals for the content of curricula;

11) make proposals for the development of the University's material base, including issues related to students' life and leisure;

12) have the right to declare protests;

13) ensure the fulfillment of the students' duties;

14) organize cooperation with persons studying in other higher educational establishments and youth organizations;

15) promote the employment of graduates;

16) participate in the solving the issues of international exchange of students;

17) perform other functions stipulated by the Law of Ukraine "On Higher Education" and the provisions on student's self-government of the University.

In agreement with the student's self-government body of the University, the decisions are made on:

1) deduction of students from the University and their renewal to study;

2) transferring of persons enrolled at the University under the state contract for training under contract at the expense of individuals (legal) persons;

3) transferring of persons studying at the University at the expense of individuals (legal entities) to study by government order;

4) appointment of the deputy dean of the faculty, deputy director of the educational and scientific institute, deputy rector - vice-rectors;

5) resettlement of students enrolled in the University and their eviction from the hostel;

6) approving the rules of the University's internal regulations regarding the students involved;

7) activities of student campuses and dormitories for accommodation of persons studying at the University.

The supreme body of student self-government is the University Student Conference, which:

1) approves the provisions on the student's self-government of the University, determine the structure, powers and procedure of direct secret elections of the representative and executive bodies of the student's self-government;

2) listens to the reports of representative, executive and control-audit bodies of student self-government, gives them an appropriate assessment;

3) approves the procedure for the use of property and funds of student self-government bodies, support of student initiatives on a competitive basis;

4) approves the annual cost estimate (budget) of student self-government bodies, make changes and additions to it, hear the report on its implementation;

5) elects a control and audit committee from among students to carry out current control over the state of use of property and to fulfill the budget of student self-government bodies;

6) elects elected representatives from among the students attending the University to the Academic Council of the University.

The following procedure is established for the formation of the conference staff: delegates of the conference on public responsibilities are members of the senate, heads of student senates of faculties, educational and scientific institutes, heads of student councils of hostels. Other conference delegates are elected by a majority of votes at the general meeting of the academic groups in accordance with established quotas.

The quantitative composition of the conference is 350 people.

The organization and holding of the conference is carried out by the Senate.

The conference is convened at least once a year.

The conference shall be considered valid if two-thirds of the total statutory membership of the conference was present. Decisions at the conference are taken by a simple majority.

6.3.4. The financial basis of student's self-government is:

1) funds determined by the Academic Council of the University in the amount of not less than 0.5 percent of own income received by the University from the main activity;

2) student membership fees, the amount of which is set by the higher body of student self-government of the University. The monthly membership fee of one person may not exceed 1 percent of the subsistence minimum required by law.

The funds of student's self-government bodies shall be allocated for the fulfillment of their tasks and the exercise of their powers in accordance with the approved budgets.

Student's self-government bodies report publicly on the use of funds and budgeting at least once a year.

All units of student's self-government in their activities are governed by the laws of Ukraine, the Charter of the University and the Regulations on student's self-government of the University.

7. PROPERTY AND COSTS OF THE UNIVERSITY

7.1. The material and technical base of the University includes buildings, structures, land, communications, equipment, vehicles, office accommodation, library holdings and other material assets.

In accordance with the law and taking into account the organizational and legal form of the University for the purpose of providing statutory activity, buildings, structures, property complexes, communications, equipment, vehicles, library funds and other property are fixed on the basis of the right of economic management or transferred to the property by the Ministry of Education and Science of Ukraine.

The land use and realization of the rights of the land owner, including the acquisition of the relevant rights to the land, are carried out by the University in accordance with the Land Code of Ukraine.

The property is assigned to the University on the right of economic management and cannot be the subject of pledge, and is not subject to withdrawal or transfer to the property of legal entity or an individual without the consent of the Ministry of Education and Science of Ukraine and the conference of the University's labor collective, except in cases provided by law.

Own revenues of the University, received from payment for services provided in accordance with educational, scientific and educational-production activity, charitable contributions and grants in accordance with the decision made by the

Academic Council of the University, shall be credited to special registration accounts opened in the territorial body of the central executive body in the area of treasury servicing of budgetary funds, or on current and / or deposit (deposit) accounts of state-owned banks. These revenues, as well as the percent received from the placement of funds of the University in deposit (deposit) accounts in state-owned banks are included in the financial plan (estimate) of the University, and can be used for the purchase of property and its use, capital construction and repair of premises, improvement of material and technical, educational, laboratory, educational and methodical support of the educational process, etc. within the statutory activities of the University.

The University transfer of the property assigned to it on the economic management of the property is carried out without the right of redemption in accordance with the law.

University buildings, structures and premises must meet accessibility requirements in accordance with state building norms and standards. If the facilities cannot be completely adapted for the needs of persons with special educational needs, their reasonable adaptation is made taking into account the universal design.

Design, construction and reconstruction of buildings, structures and premises of the University are carried out taking into account the needs of persons with special educational needs.

Land plots are transferred to the University for permanent use in the manner prescribed by the Land Code of Ukraine.

The University in the manner prescribed by law and in accordance with the Statute has the right:

1) of ownership to intellectual property objects created at their own expense or at the expense of the state or local budgets (except in cases stipulated by law);

2) to establish a sustainable fund (endowment) of the University and to dispose of the revenues from its use in accordance with the conditions of operation of the sustainable fund, as well as to receive property, funds and material values, including buildings, structures, equipment, vehicles, from state bodies, local self-government bodies, legal and natural persons, including as charitable assistance;

3) to carry out financial and economic activities in Ukraine and abroad;

4) to use the property assigned to it under the right of economic management, including for conducting business activities, to lease it out and use in accordance with the law;

5) to create its own or use other material and technical bases under the contract for carrying out educational, scientific, innovative or economic activity;

6) to create and develop its own base of social and household objects, a network of sports-health-improving, medical-prophylactic and cultural-artistic structural units;

7) to carry out capital construction, reconstruction, capital and current repair of main funds;

8) to direct funds for social support of scientific and pedagogical, scientific, pedagogical and other employees of the University and persons studying at the University;

9) to open current and deposit accounts in national and in foreign currency in accordance with the law, to use bank loans without taking into account the restrictions on the right to make borrowings established by the Budget Code of Ukraine;

10) to participate in the formation of the statute capital of innovative structures and small enterprises formed with the participation of the University, which develop and introduce innovative products, by introducing immaterial assets (property rights to objects of intellectual property rights);

11) to establish educational institutions and research institutions;

12) to establish enterprises for innovation and / or production activities;

13) to make payments in foreign currency of contributions for collective membership in international educational and scientific associations, as well as for subscription to foreign scientific publications and access to world information networks and databases;

14) by contributing immaterial assets (property rights to intellectual property objects) to participate in the formation of the statute capital of innovative structures of various types (scientific, technological parks, business incubators, etc.);

15) to create its own or use other material and technical bases for the purpose of conducting training and production practice of persons studying at the University, as well as for own economic activity;

16) to provide funds for representation expenses in the budget of the University.

The University has the right to use the benefits to pay taxes, fees, customs duties and other payments to state and local budgets established for higher education by Tax Code of Ukraine and other legislative acts.

The management of the property assigned to the University, control over the efficiency of its use and storage is exercised by the Ministry of Education and Science of Ukraine.

The alienation of property secured by the University and the funds received as a result of its alienation shall be carried out only in agreement with the Ministry of

Education and Science of Ukraine in accordance with the procedure established by the legislation of Ukraine.

7.2. Financing of the University is provided at the expense of the state budget on the terms of the state order for the payment of services for training specialists, scientific and scientific-pedagogical staff, and at the expense of other sources not prohibited by the law, in compliance with the principles of purposeful and effective use of the funds, publicity and transparency in acceptance solutions.

The funds involved are directed to the carrying out of the statutory activities of the University in the manner and under the conditions specified by the law and the Statute of the University.

The financial plan (budget) of the University must include the costs associated with the development of material and laboratory facilities, the provision of licensed software products for educational and scientific activities, as well as the passage of productive and undergraduate practices of all the applicants of higher education.

Funds received by the University, such as fees for tuition, training, retraining, advanced training, or educational services, cannot be withdrawn into the income of the state or local budget.

General and special funds are created at the University.

Costs of general and special funds are formed in accordance with the legislation of Ukraine.

Costs of general and special funds for the maintenance of the University, stipulated by the Statute, are used for reimbursement of material costs, for the performance of works corresponding to the University profile, for payment of salaries, material assistance, scholarships, creation of necessary material and technical base, social development and material stimulation of labor collective in accordance with the legislation of Ukraine.

Taxation of funds, material and immaterial assets received free of charge in the form of grants or voluntary donations of legal entities and individuals, including non-residents, in the behalf of the University for conducting educational, scientific, health, sports, cultural and other activities, is carried out taking into account the features established by the Tax Code and other legislative acts.

The University independently manages the revenues and receipts obtained from the provision of paid services authorized by law.

The revenue of the University is used solely to finance the expenses for the maintenance of the University, the realization of the purpose (goals, objectives) and directions of activity defined by the constituent documents.

Taxation of economic activity of the University is carried out in accordance with the law.

Payment for work at the University is carried out in accordance with the Labor Code of Ukraine, the Law of Ukraine "On Higher Education", the Law of Ukraine "On Education" and other legal acts.

For employees, allowances and surcharges to the salary (rate) may be set at the expense of general and special funds in accordance with the legislation of Ukraine.

Allowances and surcharges are set by the order of the rector upon submission of heads of departments or on the basis of departmental normative document.

7.3. The amount of the fee for the whole period of study for obtaining the corresponding degree of higher education, advanced training, as well as the procedure for payment of educational service (one-time, yearly, semesterly, monthly) shall be specified in the contract concluded between the University and the individual (legal entity) ordering paid educational service to themselves or to another person, assuming financial obligations to pay for it.

The amount of the fee for the whole period of study for obtaining the corresponding degree of higher education, qualification improvement is set by the University in national currency.

The University has the right to change the tuition fee in the manner stipulated in the contract, not more than once a year and no more than the officially determined inflation rate for the previous calendar year.

The fee for the whole period of study or for the provision of additional educational services shall be published in the media, on official websites, on information stands and in any other way.

8. THE PROCEDURE OF REPORTING AND MONITORING OF FINANCIAL ACTIVITIES.

8.1. The University in accordance with the Budget Code of Ukraine and the Law of Ukraine "On Accounting and Financial Reporting in Ukraine", the Decree of the President of Ukraine "On the Regulations on the State Treasury Service of Ukraine" and other legal acts, draws up approved forms of monthly, quarterly and annual reports and submits them to the Ministry of Education and Science of Ukraine, bodies of the State Treasury of Ukraine, State Fiscal Service, State Committee of Statistics, Pension Fund of Ukraine, Social Insurance Fund of Ukraine.

8.2. The University independently carries out accounting and tax accounting of its work, maintains statistical reporting in accordance with the established norms, submits it in due course to the bodies, which by the legislation of Ukraine are granted the right to control the respective areas of the activity.

8.3. The Rector and the Chief Accountant of the University are personally responsible for the accuracy of accounting and statistical reporting. Annually, before the conference of the labor collective and they have to report on the use of the University's budget.

8.4. The activity of the University is audited in accordance with the legislation of Ukraine.

8.5. The State supervision (control) of the observance by the University of the legislation and standards of educational activity is carried out by the Ministry of Education and Science of Ukraine, which ensures the implementation of state policy in the field of education by exercising state supervision (control) of the activities of educational institutions.

8.6. The Public control in the field of higher education is a right of the society and individual citizens, workers in the sphere of higher education, persons studying, public self-government bodies, trade unions, employers' organizations and their associations to have the access to information in accordance with the established legislation. The decision-making in the sphere of higher education and science at all stages, is to make proposals and comments to them, to coordinate the decision-making determined by law. Public control is exercised by public associations and individuals based on openness and transparency.

9. CONCEPT OF EDUCATIONAL ACTIVITIES

9.1 The educational activity of the University is based on the conceptual foundations of the national doctrine of education development, the Laws of Ukraine “On Education”, “On Higher Education”, and the State National Program “Education” (“Ukraine of the 21st Century”).

The educational activities of the University are carried out in accordance with the standards of education for higher education institutions, which are developed by the Ministry of Education and Science of Ukraine and approved in the prescribed manner. Studying at the University is carried out in the following forms: full-time (day, evening); correspondence (distance). Forms of study can be combined. The training of specialists with higher education is carried out according to the relevant educational-professional, educational-scientific, scientific programs at the following levels of higher education: initial level (short cycle) of higher education; the first (bachelor) level; the second (master's) level; third (educational) level; scientific level. Higher education at each level of higher education implies the successful completion by a person of an appropriate educational (educational, vocational or educational-scientific) or scientific program, which is the basis for awarding an appropriate degree of higher education: junior bachelor; bachelor; Master's degree; Doctor of Philosophy; PHD. A contingent of students from all specialties is formed on the base of a state order for the training of specialists, licenses and contracts with legal entities and individuals. The general content, level, scope and methods of study at the University must meet the requirements for professional training of specialists of the relevant educational level. Specification of the content of training and organization of the educational process is determined by the work curricula and programs approved by the Academic Council of the University. Forms, terms, content of training may also be determined by the University in agreement with customers for the training and retraining of specialists. The language of teaching and documentation at the University is Ukrainian. In the study of foreign philology, the teaching of special

subjects can be carried out in the languages studied. In order to create the conditions for international academic mobility, a higher education institution has the right to decide to teach one or more courses in English and / or other foreign languages, while providing higher education students with the relevant language education at the state language. The list of specialties by which the University prepares specialists, as well as the proposals for the admission plan for students, graduate students and doctoral students, is determined by the Academic Council of the University, taking into account state, regional, sectoral orders, individual orders and an approved license. The University: a) provides undergraduate and postgraduate students with academic classes, scientific, laboratory equipment, electronic computers, modern technical facilities, educational, scientific and other literature; b) provides conditions for education and work of 36 students, graduate students, teachers, employees; c) provides premises for the work of mugs, canteens, cafes, student clinics, medical centers, preventive maintenance. The general management of the educational process at the University is carried out by the Rectorate, the deans of the faculties and the directorates of educational and scientific institutes.

The main scientific-methodological and educational-organizational issues of the educational process are considered by the Academic Council of the University, the Academic Councils and the Methodological Commissions of the faculties and educational-scientific institutes. The main and defining link of the educational process at the University is the department, which selects the teaching staff, distributes various activities between teachers, solves the content of academic disciplines, forms and terms of intermediate and final control of students' knowledge, determines the directions of scientific, scientific and methodological researches , organizes educational work with students and staff. The educational process at the University is carried out in accordance with the Law of Ukraine “On Higher Education” and university normative documents. It is secular and free from the interference of political parties, public and religious organizations. The educational process at the University is focused on training of specialists of a wide profile and specific qualification direction, new information technologies of training and provides training of professionals of professionally mobile, capable for rapid adaptation, constant updating of science, technology. The Educational tasks at the University are realized in the process of educational, scientific, industrial and social activities of students, teachers and employees. The coordination of this activity in academic groups is carried out by academic mentors who are appointed by the deans of faculties, directorates of educational and scientific institutes. Students who have fulfilled all the requirements of the curriculum are admitted to the final attestation, which results in the decision of the examination committee to qualify them and issue a certificate of higher education (scientific degrees) of the state sample and additions to them under accredited programs of the state sample.

Students may be expelled from the University:

for completing their studies in the relevant educational (scientific) program; voluntarily; in connection with the call for military service; in connection with transfer to another educational institution; for failure to comply with the

requirements of the curriculum and the schedule of the educational process (for academic failure); for breach of contract (in agreement with student's self-government bodies); in other cases provided for by law. The University carries out the postgraduate education and retraining, pre-university training, implements certification programs. Citizens who have fulfilled all the requirements of such programs receive a certificate. The university on the basis of higher education in a short time prepares specialists in the perspective necessary areas of national economy, science and technology.

10. SCIENTIFIC, SCIENTIFIC-TECHNICAL AND INNOVATIVE ACTIVITY AT THE UNIVERSITY

10.1. The University performs scientific, scientific-technical and innovative activity (hereinafter - SSTIA), the main tasks and procedure of which are determined by the Constitution and laws of Ukraine, acts of the President of Ukraine, the Cabinet of Ministers of Ukraine, the Ministry of Education and Science of Ukraine, the Regulations on the organization of scientific, scientific-technical activities at higher education institutions of III and IV levels of accreditation. SSTIA is an integral part of the University's activities and is being implemented to integrate scientific, educational and productive activities in the higher education system.

10.2. The main goal of SSTIA at the University is to acquire new scientific knowledge through research and development and their focus on the creation and implementation of new competitive technologies, types of technology, materials, etc. to ensure innovative development of society, training specialists of innovative type.

10.3. The main tasks of the University in the field of scientific, scientific-technical and innovative activity are:

10.3.1. Obtaining competitive scientific and applied scientific results.

10.3.2. Application of new scientific, scientific-technical knowledge in the preparation of specialists with higher education.

10.3.3. Formation of modern scientific human resources capable of providing development and implementation of innovative scientific developments.

10.3.4. Development of basic research in the field of natural sciences, humanities, psycho-pedagogical, socio-economic sciences with the purpose of their further use for the development of priority directions of science and technology, social development and economic development of the country. Performing applied research and workings for the effective use and development of scientific potential, involving additional funds for solving social and other tasks of the branch.

10.3.5. Research and development of theoretical and methodological bases of higher education formation and development, strengthening of influence of science on solving problems of education and upbringing, preservation and strengthening of determining character of science in development of society, culture, economy.

10.3.6. Support for existing and formation of new scientific schools.

10.3.7. Implementation of measures to support the research of young scientists and gifted students, their involvement in scientific schools.

10.3.8. Effective use of the scientific and scientific-technical potential of higher education for solving the priority tasks of production and carrying out socio-economic transformations.

10.3.9. Development of new, progressive forms of scientific and technical cooperation with foreign and domestic centers of academic and branch science in order to jointly solve the most important scientific and technical problems, create high technologies and expand the use of scientific developments in industry.

10.3.10. Development of innovative activity for creation of science-intensive scientific and technical products and competitive models of new equipment and materials that are oriented to the market of high technologies.

10.3.11. Promoting the protection of intellectual property, authorial rights of researchers, as the basis for the strengthening and development of science, the entry into the world market of high-tech products (technologies).

10.3.12. Modernization, updating of the University's experimental and production base and its effective use.

10.3.13. Organization of information, publishing, promotion of science achievements in mass media, Internet.

10.3.14. Conducting market conditions for research and services, patent licensing, marketing, information support and transfer of scientific and technical products (technologies) in accordance with international standards.

10.3.15. Development and content filling of higher education standards, considering the achievements of world science and technology.

10.3.16. Research and experimental development on other natural sciences and engineering.

10.3.17. Research and experimental development on social sciences and humanities.

10.4. The SSTIA management at the University is carried out by the Vice-rector for scientific work within the powers delegated by the Rector.

10.5. The Vice-Rector for Scientific Work performs the functions of management of the SSTIA at the University through the Scientific and Technical Council as an advisory and expert body. The Scientific and Technical Council acts in accordance with the "Regulations on the Scientific and Technical Council of the University".

10.6. The organization and coordination of SSTIA at the University is carried out by the scientific-research part in accordance with the “Regulations on the scientific-research part of the Vasyl Stefanyk Precarpathian National University”.

10.7. The scientific-research part of the University consists of the structural units of the scientific-research part, which operate on the basis of the Statute of the University, are created by the order of the rector and are subordinate to the Vice-rector for scientific work.

10.8. The structural units of the research unit carry out their activities in accordance with the provisions approved by the Rector.

10.9. The implementation of programs and projects of basic and applied research, applied workings at the University is carried out by collectives (thematic groups, creative teams, etc.), which include scientific and pedagogical staff, doctoral students and postgraduate students, students, support staff and, if necessary, other organizations.

10.10. The organization and direct management of the implementation of programs and research projects are carried out by scientific managers. If necessary, responsible executors of programs and projects, scientific consultants and other responsible persons may also be appointed.

10.11. The implementation of SSTIA at the University introduces the principle of multichannel funding, including the use of opportunities provided by the University's entry into the international scientific space.

10.12. The sources of funding of SSTIA at the University are the state budget funds and the funds obtained for the implementation of research and construction work, the provision of educational and scientific services commissioned by legal entities and individuals, and the funds for paid services that can be provided by budgetary scientific institutions approved by the resolution Of the Cabinet of Ministers of Ukraine dated 28.08.2003 №1180 (as amended).

10.13. Scientific and research workings of the University, carried out at the expense of the state budget, are financed by the Ministry of Education and Science of Ukraine under the relevant budget program.

10.14. Current and prospective planning of SSTIA at the University is carried out by the Scientific and Technical Council.

10.15. The planning of scientific and research workings at the University is carried out in accordance with scientific and technical directions. The basis for the planning of the research activity is the thematic plan of the research works.

10.16. The Scientific and Technical Council of the University carries out the current and prospective planning of the SSTIA in accordance with the thematic plan approved by the Rector and agreed with the Ministry of Education and Science of Ukraine. Basic researches, applied workings, workings that promote the development

of innovative activities and are funded by the State Budget of Ukraine, are included in the thematic plan on the basis of competitive selection.

10.17 The financial and economic activity of the University in the field of SSTIA is carried out on the basis of the budget of the University approved by the Ministry of Education and Science of Ukraine under the relevant budget programs.

10.18. The estimate is the main planning document of the University, which gives authority to receive revenues and make expenditures. It determines the amount and allocation of funds for the University to fulfill its functions and achieve the goals set for the budgetary period in accordance with budgetary allocations.

10.19. Planning of expenditures for conducting scientific-research and research-constructor works is carried out by the University independently on the basis of calculations, which are reflected in the estimated cost as a whole by theme, as well as the allocation of the cost of works (services) to be performed in the current budget year.

10.20. Documentary of operations related to the implementation of SSTIA or provision of paid services in the field of scientific, scientific-technical activities, ensuring their accounting, reporting is carried out in accordance with the requirements of the Budget Code of Ukraine, the Procedure for drawing up, review, approval of basic requirements for the implementation of budget estimates institutions approved by the Cabinet of Ministers of Ukraine on February 28, 2002. No. 228, and other legal acts.

10.21. Scientific-research, research-constructive works carried out at the expense of the State Budget of Ukraine shall be subject to obligatory registration at the Ukrainian Institute of Scientific, Technical and Economic Information in accordance with the resolution of the Cabinet of Ministers of Ukraine of March 31, 1992. No. 162 “On State Registration of Scientific-Research, Research-Constructive Works and Dissertations”.

10.22. According to the results of the performed scientific researches at the University, the corresponding reports are prepared, collections of scientific papers, reports and abstracts of reports at scientific conferences, annotations of the completed SSTIA are published.

10.23. Subjects of scientific, scientific-technical activity at the University are full-time scientific and scientific-pedagogical workers, scientific-technical workers, doctoral students, postgraduate students, students, trainees-researchers, management staff of the educational institution, employees who carry out the organization and coordination of researches and workings, training of highly qualified specialists.

10.24. Specialists of scientific institutions, enterprises, organizations of the National and branch academies of sciences, other specialists with the relevant qualification may be involved in the implementation of scientific, scientific-technical works at the University.

10.25. Scientific-pedagogical, scientific workers carry out researches and workings in accordance with national, state, sectoral and other programs and projects, thematic, coordination plans, contracts, tasks (technical tasks), individual plans. They are responsible for the quality and timeliness of their implementation, scientific and practical value, social and economic usefulness of scientific and scientific-practical results.

10.26. An integral part of the scientific-technical potential of the University is the scientific achievements of students, that provide for research work, which is included in the schedule of the educational process (coursework, diploma work, practical, laboratory classes, practice with elements of a research character), and work that is individually performed outside the timetable of the educational process.

10.27. The University carries out scientific-technical cooperation with educational, scientific institutions, organizations, firms and foundations of foreign countries, other types of scientific cooperation in accordance with the current legislation of Ukraine.

10.28. International scientific and scientific-technical cooperation of the University is aimed at:

10.28.1. Involvement of foreign customers, investors, concluding and implementing cooperation agreements with foreign universities, firms, foundations and other organizations for conducting research and workings;

10.28.2. Involvement of funds from foreign customers and international funds and grants to fund SSTIA at the University;

10.28.3. Obtaining competitively in the world market applied scientific results, development of highly efficient scientific and technical products;

10.28.4. Transfer to the world market of scientific and technical products, marketing, participation in international exhibitions, fairs;

10.28.5. Ensuring the passage of scientific, scientific-pedagogical staff, doctoral students, postgraduate students, gifted students of scientific internship abroad, acquaintance with the advanced world achievements of technics and technology, devices and scientific equipment;

10.28.6. Publication of scientific results that are not confidential information abroad in leading scientific, scientific-technical editions;

10.28.7. Organization and participation in international scientific, scientific-practical conferences, seminars, symposia;

10.28.8. Nomination of leading scientists of the University for International Awards.

10.29. The acquisition, protection and protection of the rights of the University and participants of the educational process regarding the results of scientific,

scientific-technical and other activities are ensured in accordance with the legislation of Ukraine.

10.29.1. The University has the right to dispose of intellectual ownership rights to the objects of intellectual ownership.

10.29.2. Costs incurred by the University because of the provision of legal protection for intellectual ownership objects and property rights, acquired in accordance with the procedure established by law, shall be borne by the University's own revenue.

10.29.3. Intellectual ownership objects are subject to evaluation. As a result of their valuation, their value is reflected in the accounting of the University in the manner prescribed by the legislation of Ukraine.

10.29.4. The University undertakes to implement measures, including the transfer of technologies, intellectual ownership objects, the property rights to which they have acquired.

10.29.5. The University undertakes measures to prevent academic plagiarism by publishing (in whole or in part) scientific results obtained by others, as the results of own research and / or reproduction of published texts by other authors without appropriate reference.

10.29.6. The contract for the creation of a custom intellectual ownership object shall specify the methods, conditions and procedure for the exercise of the respective property rights of intellectual ownership.

11. PROCEDURE OF AMENDING THE STATUTES OF THE UNIVERSITY

11.1 The Statute of the University is developed by the Academic Council of the University and submitted for approval by the Conference of the University's labor collective, after which the Statute is submitted for approval to the Ministry of Education and Science of Ukraine.

11.2. Amendments to the Statute of the University shall be formulated in the new version and approved in the same manner as the Statute itself.

12. THE UNIVERSITY'S REORGANIZATION AND LIQUIDATION.

The Cabinet of Ministers of Ukraine make the decision on the formation, reorganization (merger, accession, division, transformation) or liquidation of the University. The liquidation and reorganization (merger, merger, division, transformation) of the University is carried out in accordance with the current legislation of Ukraine.

The Liquidation of the university is carried out by the liquidation commission, which is formed by the Ministry of Education and Science of Ukraine. The

liquidation commission is composed of representatives of the Ministry of Education and Science of Ukraine and the University.

From the moment of the appointment of the liquidation commission, the authority over the management of the University shall be transferred to it. The liquidation commission draws up the liquidation balance of the University and submits it to the body that appointed the liquidation commission.

During the liquidation and reorganization of the university, the dismissed employees are guaranteed the protection of their rights and legitimate interests in accordance with the labor legislation of Ukraine.

The reorganization or liquidation of the University shall not violate the rights and interests of the persons enrolled at this University. The founder of the University is responsible for resolving all issues of continuation of higher education by such persons.

In case of termination of the legal entity (as a result of its liquidation, merger, division, accession or transformation), the assets are transferred to the budget revenue.

Rector Igor Tsependa
