6 CLEAN WATER AND SANITATION

CLEAN WATER AND SANITATION

The university has created the right conditions to provide all participants of the educational process with clean water and appropriate sanitary conditions, because we understand that this is a prerequisite for ensuring our life, that this is a prerequisite for ensuring our livelihood.

Water is the foundation of life!

The project “Engineering of metal oxide catalysts with the function of controlling activity for hydroxyl radical disinfection of water” for the amount of:

690 000, 00 €

20

Elective courses

1

Educational and scientific laboratory

Scientists of the Department of Biochemistry and Biotechnology took part in the first stage of the project at the University of East Anglia.

7 AFFORDABLE AND CLEAN ENERGY

AFFORDABLE AND CLEAN ENERGY

The university scholars actively work in the context of modern technology development in the sphere of energetics and renewable energy.

The opening of International scientific project “Durable and efficient nanotechnological fuel cells” in the framework of NATO programme «Science for peace and security»

Project “Developing the mechanism of strategic public management of Ukrainian energetic and economic safety” worth:

799 100, 00 €

The establishment of photovoltaic station in the monastery «Maniavsk Hermitage» that functions as an educational and scientific centre of PNU

4

Scientific and educational scientific centres and laboratories

51

Elective courses

8 DECENT WORK AND ECONOMIC GROWTH

DECENT WORK AND ECONOMIC GROWTH

The university has created decent work conditions for its employees and provided all stipulated by the law payments within the limits of the basic and additional salary, and also provided the system of rewarding employees for the results of efficient work.

4

Science conferences dedicated to the topic

8

Scientific research works within the framework of department's subject

6596

Students

who underwent practice for more than a month.

laboratories

Presenting the project of
observatory renovation on the
mountain Pip Ivan in order to
study climate

14 LIFE BELOW WATER

LIFE BELOW WATER

The university scientists cooperate with the key partners of the region in order to preserve aquatic ecosystems.

The university graduates are employed in the Dnister basin water resource management.

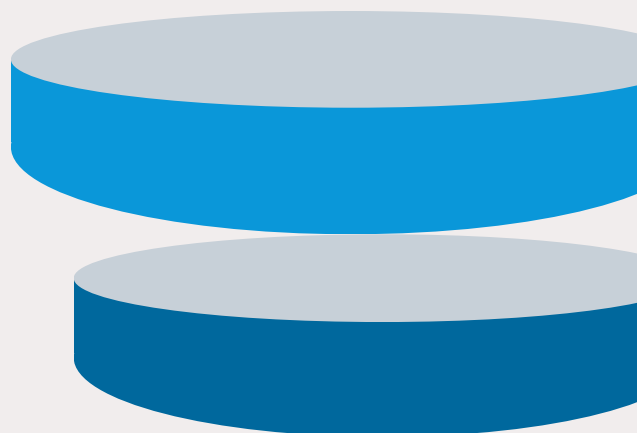

1

Collaboration agreement in the sphere of water resources preservation

14

Elective courses

15 LIFE ON LAND

LIFE ON LAND

Scientists specialised in biology, agronomy and geography conduct science research and implement a number of projects in order to preserve terrestrial ecosystem.

1

Project in the amount of:

1 834 954, 00 €

3

Scientific and educational scientific centres and laboratories

5

Events dedicated to the subject

8

Scientific research works within the framework of department's subject

177

Elective courses

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

PEACE, JUSTICE AND STRONG INSTITUTIONS

The university has formed a corporate culture based on the principles of quality, justice, transparency and people-centeredness.

The university conducts active volunteer activities for the victory of Ukraine.

Events dedicated to the subject

28

Scientific and educational scientific centres and laboratories

9

Science conferences dedicated to the subject

11

Scientific research works within the framework of department's subject

8

Bachelor educational programmes

2

Civil servants who completed professional development courses in PNU

35

Major educational programme

1

Graduates of courses related to law and law enforcement agencies

344

36

136

UTH (United Territorial Hromadas) in partnership with ПНУ

Elective courses

17 PARTNERSHIPS FOR THE GOALS

PARTNERSHIPS FOR THE GOALS

The university is a member of 6 international consortia and in partnership with more than 70 foreign universities and science organizations across EU, USA and Asia.

2

Bachelor educational programmes

2

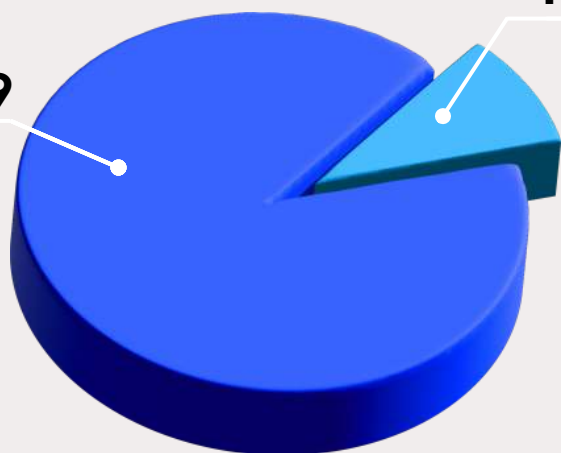

Major educational programme

58

Elective courses

149

15

Concluded cooperation agreements in 2023

- Ukrainian
- International

1

Project in the amount of:

41 906, 00 €

8

Scientific and educational scientific centres and laboratories

9

Scientific research works within the framework of department's subject

10

Events dedicated to the subject
